#1. Think in the community living in that areas including the access <sup>interactions</sup> to that means broken the enter and exit for families getting that route.

#2 Think the air pollution with their complications like illness and other.

#3 The primary necessity is our population or population living in our areas, interrupt the actual education - There are other alternatives that can use it like a survey house for house in relation at purpose (reduce the interaction traffic).

#4 Health aspects again
