#### **Here's a few things we know so far so you can share with your community:**

- The demolition is scheduled for Saturday, June 5th at 6am with a weather delay day scheduled for June 6th at 6am.
- The demolition will use major explosives and will be very loud. The sound will likely travel for a few miles. They are using major explosive equipment to demolish the stacks
- If you live very close to the stacks, it might be a good idea to close your windows during the explosion.
- If you think there will be debris on your property, it will likely be hazardous.
- If you plan to watch the explosion, it might be a good idea to wear a mask and/or goggles.
